

Which Countries Bought The Most Rock Music?

Top Ten Buyers Of Rock Music From Chinook

The United States bought rock music 157 times, which also equates to 19% of all rock music bought on the platform. Canada was the next closest consumer of rock music. Then there was a drop-off of buys per country.

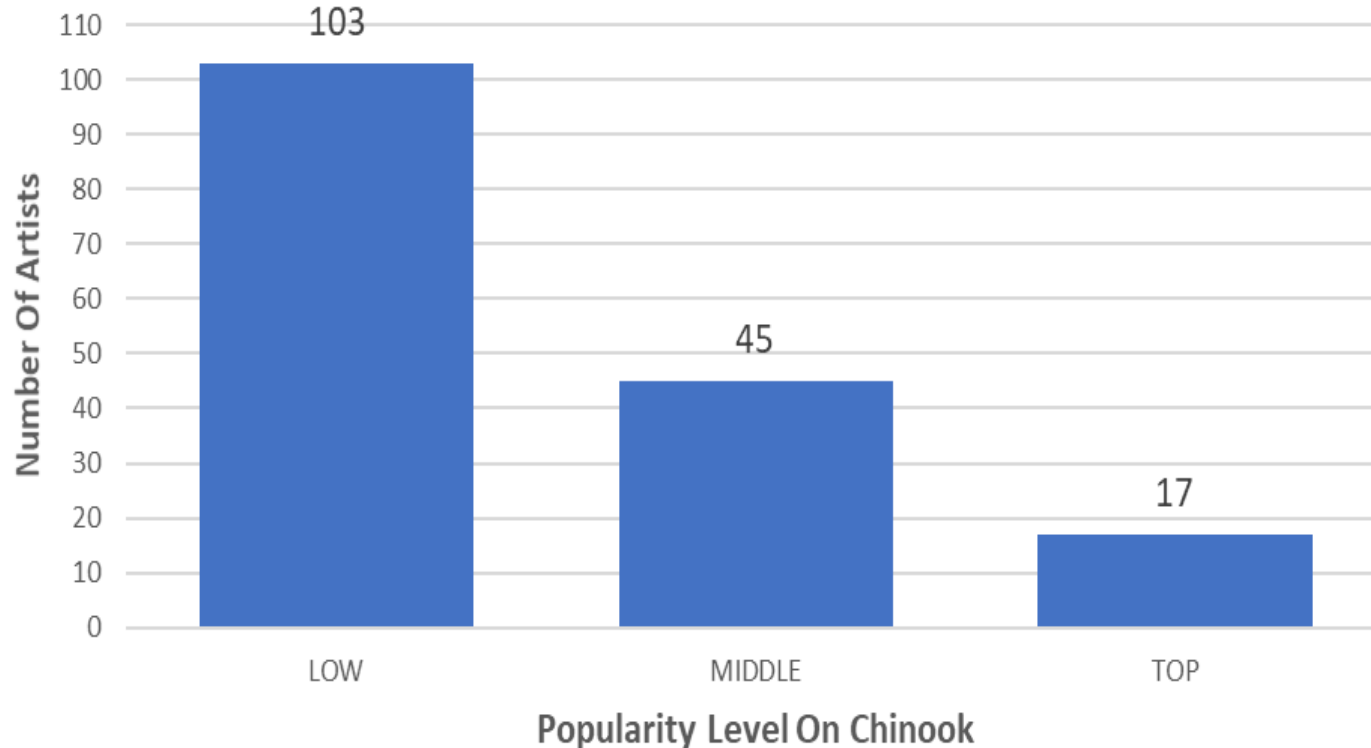

Which Genres Did People Spend The Most Money On?

The most popular genre on Chinook is definitely Rock Music. It made almost more money than the next three genres (Latin/Metal/Alternative Punk) combined. After Alternative Punk, there was a drop-off in sales and the rest of the genres were pretty even on sales.

Artists On Chinook Grouped By Popularity Level

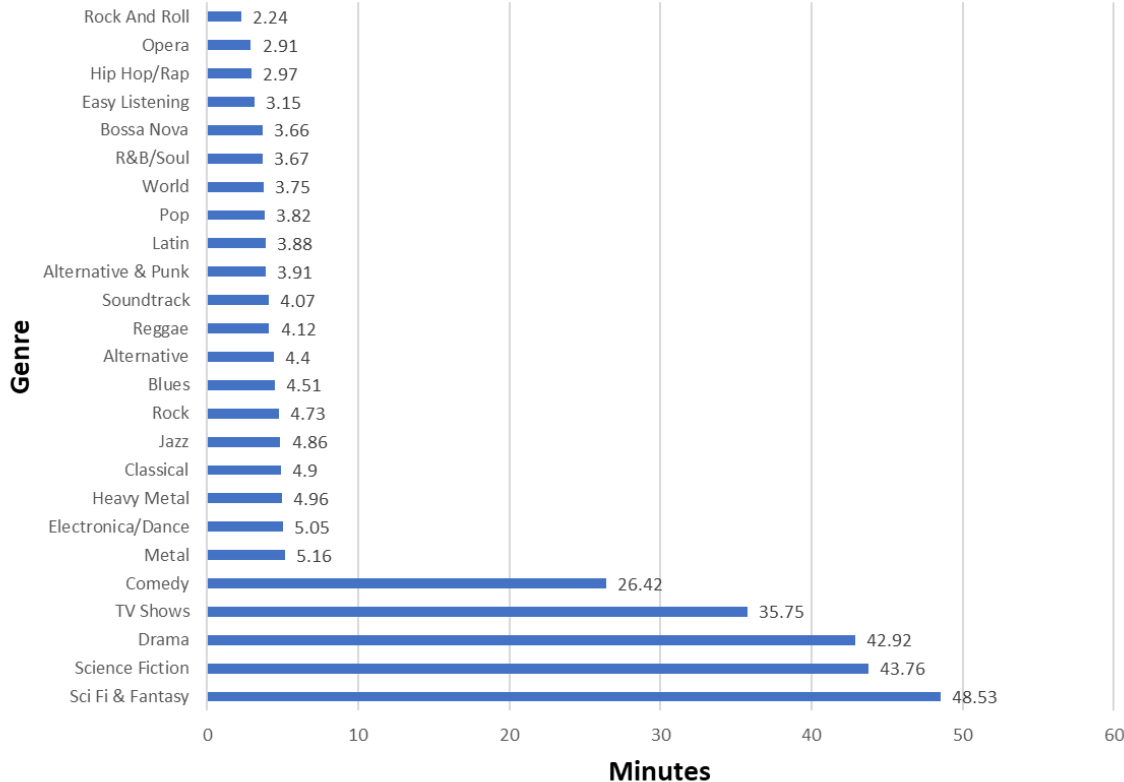

Artists On Chinook Grouped By Popularity Level

I grouped artists from the Chinook database by how many songs they sold. I only used artists who sold at least one song. Any artist who sold less than 10 songs I categorized by “Low Popularity”. Any artist who sold less than 30 songs, I categorized as “Middle Popularity”. Finally, any artist who sold over 30 songs I classified as “Top Popularity”.

How Long On Average Is Each Track In a Genre?

Average Minute Per Track By Genre

In this question, I wanted to find how on average how long is each song in a genre. I found out that **SciFi/Fantasy, Science Fiction, Drama, TV Shows, and Comedy** have the longest track length on average. This makes sense, because these are probably TV/Movies/Audio Books. The shortest track lengths are **Rock And Roll, Opera, and Hip Hop/Rap**.
